~ DID YOU KNOW ~

THE CAIPIRINHA

Caipirinha is Brazil's national cocktail, made with cachaça, sugar and lime. Cachaça, also known as caninha, or any one of a multitude of traditional names, is Brazil's most common distilled alcoholic beverage. Although both rum and cachaça are made from sugarcane-derived products, in cachaça the alcohol results from the fermentation of fresh sugarcane juice that is then distilled, while rum is usually made from refinery by-products such as molasses.
